

It doesn't hurt to give it some thought

## Help **SAVE Siddarth**

Siddarth is a young boy with aplastic anemia and **URGENTLY** needs your help

**He needs a bone marrow transplant NOW**

**YOU can possibly save Siddarth**

If you are between 18 and 50 years old and from a Sri Lankan or South Asian background\*, you could be a potential match for him

Fill out a form and give a small blood sample for matching  
This testing is tissue typing so your blood group is not important

**It takes only a few minutes to give someone a chance of a lifetime**
