

It doesn't hurt to give it some thought

Help SAVE Siddarth Sith-Nanthan

Siddarth is a young boy with aplastic anemia and **URGENTLY** needs your help

He needs a bone marrow transplant NOW

YOU can possibly save Siddarth

If you are between 18 and 50 years old and from a Sri Lankan or South Asian background*, you could be a potential match for him

Fill out a form and give a small blood sample for matching
This testing is tissue typing so your blood group is not important

It takes only a few minutes to give someone a chance of a lifetime
